

Press release from **Derbyshire Fire & Rescue Service** and **Derbyshire Fire & Rescue Authority**

Making Derbyshire Safer

23 APRIL 2020

DERBYSHIRE FIRE & RESCUE SERVICE HIGHLIGHT THE IMPORTANCE OF STAYING SAFE DURING RAMADAN

With the Muslim Holy Month of Ramadan beginning at the end of this week, Derbyshire Fire & Rescue Service (DFRS) wants to wish Safe and Blessed Month of Ramadan to all those observing this holy period.

The Service would also like to remind people of the increased fire risks in the home during this period sharing a few simple precautions that can greatly reduce the risks for yourself and your family.

During Ramadan, Muslims fast during daylight hours and only eat and drink from dusk until dawn. Because of this, cooking and meal preparation usually takes place before sunrise and after sunset, meaning that food will be prepared late at night and very early in the morning. As time goes on, fatigue can become more prominent and accidents can undoubtedly occur.

Head of Prevention and Inclusion Lee Smith said, "Ramadan is a time of great importance but it is also a time in which everyone should be extra vigilant when cooking, especially if they're feeling tired or fatigued. It is also essential that extra procedures are in place to give families the best possible chance of escape, if the unthinkable was to happen."

"Planning a safe escape route and having working smoke alarms installed on every level of your home gives you the best possible chance of escaping a fire, allowing you to **Get Out, Stay Out and Call 999.**"

As is the case with all major festivals and times of celebration, DFRS would like to share some relevant safety messages to help everyone have a safe and blessed month of Ramadan.

When **cooking** during Ramadan, you should make sure that you:

- Never leave cooking unattended, especially if you feel tired
- Take extra care if you need to leave the kitchen whilst cooking, take pans off the heat or turn them down to avoid risk
- Make sure saucepan handles don't stick out, as these could easily be knocked off the stove
- Take care when cooking with hot oil – it sets alight easily
- Take care if you're wearing loose clothing – they can easily catch fire. If this happens, remember to Stop, Drop and Roll

- Double check your cooker is off when you have finished cooking
- Keep the oven, hob and grill clean and in good working order. A build-up of fat and grease can ignite a fire

You should also ensure to:

- Make an escape plan and practice it. This will help ensure everyone knows the procedure in case of a fire
- Keep all escape routes clear, this will minimise the chance of tripping or falling whilst exiting your home in an emergency
- Keep door and window keys in a known and accessible place so these can be found quickly in the event of a fire
- Have a bedtime routine of switching everything off and closing all the doors
- Have at least one working smoke alarm on every level of your home. This means smoke will reach your alarm quicker, giving you and your family those vital extra seconds to **Get Out, Stay Out and Call 999**
