## **Staveley Community Fire Station**

Sessions: Term Time Tuesdays 6:30pm - 8:30pm

Derbyshire Fire & Rescue Service are proud to run National Cadet Units across Derbyshire. A typical unit consists of 15 cadets from varied and diverse backgrounds, aged between 13 and 17. We currently have units at the fire stations in Staveley, Shirebrook, Ilkeston and Ascot Drive in Derby.

All units are supported by our youth officers, operational firefighters and local volunteers. We are also involved in partnership working with other uniformed and non-uniformed youth provisions around Derbyshire. Sessions operate during term time only, one night a week between 6:30pm and 8:30pm.

Through a mixture of practical and classroom activities, cadets will:

- Gain an insight into working within a uniformed service
- Understand and demonstrate basic fire & rescue service “drill type” activities, such as road traffic collisions, working at heights, and pump operation using our very own youth appliances, plus many more...
- Develop both personally and socially as a young adult

- Learn self-discipline and the importance of quality team work
- Undertake challenges and be encouraged to problem solve, as individuals and as teams
- Participate in wider community engagement events with a range of partnering agencies, such as the Police, Army and Air Cadets, just to mention a few
- Complete a CVQO BTEC Level 1 in Teamwork, Personal Skills and Citizenship
- Attend a pass-out parade at the end of the two years to showcase their new skills

Derbyshire Fire and Rescue Service are proud to deliver Cadet Units across the whole of Derbyshire. A typical unit consists of 15 Cadets, all from varied and diverse backgrounds, aged between 13 and 17.
